COOKIE INFORMATION TEXT

About Cookies As Polat Metal, we use cookies to facilitate and personalize the use of our website. We want this page to help you understand why these technologies are used and how to control them or – if you prefer – delete them.

What is a Cookie?

Today, almost every website uses cookies. Like most websites, we use cookies to provide you with a better, faster and more secure experience. A cookie is a small text file that is stored on your device (e.g. computer or mobile phone) when you visit a website. Cookies can be stored on your device through your browser during your first visit to a website. When you visit the same site again with the same device, your browser checks if there is a cookie registered on your device for the site. If there is a record, it transmits the data in the record to the website you are visiting. In this way, the website understands that you have visited the site before and determines the content to be transmitted to you accordingly.

Why Are Cookies Used? Some cookies allow the website to remember preferences you have used on previous visits, ensuring that subsequent visits provide a more user-friendly and personalized experience.

Controlling and Deleting Cookies

To change your preferences regarding the use of cookies, or to block or delete cookies, simply change the settings on your browser.

Many browsers give you the option to control cookies by accepting or rejecting cookies, only accepting certain types of cookies, or being notified by the browser when a website requests to store cookies on your device. It is also possible to delete cookies that have already been saved in your browser.

The process for controlling or deleting cookies may vary depending on the browser you are using.

Instructions for allowing, blocking or deleting cookies for some popular browsers can be found at the links below.

Information on how you can manage your preferences regarding cookies used on our page is as follows:

- Visitors have the opportunity to personalize their preferences regarding cookies by changing the browser settings they use to view the page. If the browser in use offers this option, it is possible to change preferences regarding cookies via the browser settings. Thus, although it may vary depending on the options offered by the browser, data owners have the opportunity to prevent the use of cookies, prefer to receive a warning before cookies are used, or only disable or delete certain cookies.
- Although the preferences in this regard vary depending on the browser used, a general explanation can be found at <https://www.aboutcookies.org/>. Cookie preferences may need to be made separately for each device from which the visitor accesses the page.
